**Subject:** Prayer letter

Dear friends,

Thanks be to God who calls us to make disciples and then deploy them to serve Him. Sometimes He leads them to serve in other places after they have been trained and equipped. Thank you for supporting us so that we can continue doing this ministry among the Latin American people. This summer it was especially evident that sometimes we do not get as much time as we would like to invest in people's lives before the Lord moves them away to other places. But we are grateful for the time he gives us with each one.

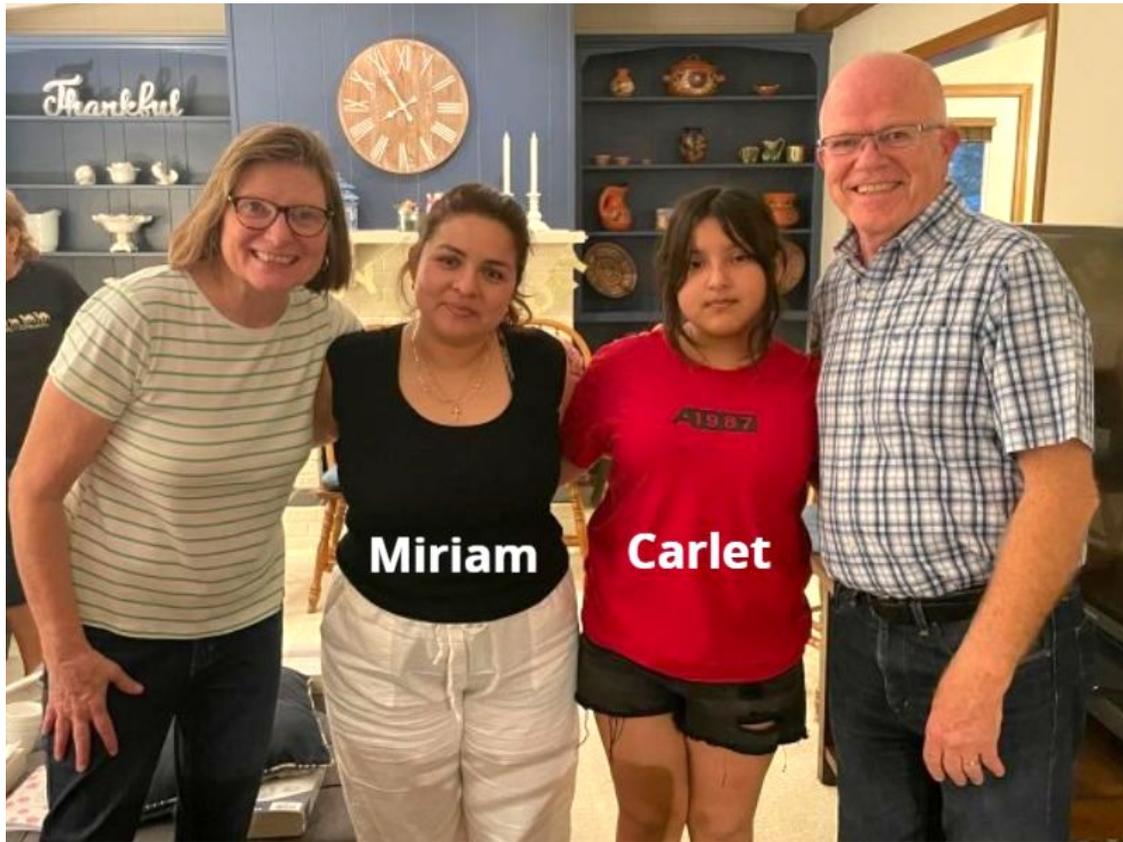

This special family from Honduras was with us for the past two years. Gabriel was given a work/study visa at Purdue University to work on a master's degree. He and his family were faithful in their attendance and in serving in our Spanish congregation. Sayra was especially grateful

for our Wednesday night studies where, in her words, "I learned a lot about the Bible and what it means to follow Christ." We tried to help Gabriel find work here in Lafayette at the end of his studies, but the Lord opened up a position for him in Georgia. We were sad to see them go, but thankful for the two years the Lord gave us together.

Esperanza came to us from Columbia for three months. She served her sister-in-law and her husband, who live here in Lafayette, for the birth of their baby. She was so excited to learn as much as she could about biblical counseling and be cared for by a loving congregation. Esperanza is back in Columbia where she has a husband and children who do not know the Lord. We pray she will continue to be a light to her family and that they may come to know him.

Miriam and her daughter Carlet were still grieving the loss of their husband and father to COVID when they arrived over two years ago. Miriam has been a sponge for the gospel and has brought joy to our lives through her enthusiasm for life and for learning the Word of God. She and Carlet just returned to Veracruz, Mexico to take care of several family matters. There are no good churches in the town they are from so they hope to settle in the port city of Veracruz. We will be helping them in their search for a church as the Lord allows them to move there. Thank you for praying with us for the Lord to guide and bless them in the challenges they will face back in Mexico.

We miss those who have moved on, but the Lord has sent replacements! Israel and Samantha are new arrivals from Mexico City! Israel is one of the new interns at Faith Bible Seminary. He is able to speak English well enough to do the class work and the best part is that he was assigned to serve under Sam's supervision in the Spanish ministry! Please pray with us that we will be good mentors for Israel and Samantha and that the Lord will be glorified through our team efforts in this ministry.

We are grateful for other new people that the Lord has brought to our Hispanic congregation as well, but will not take the space to tell you about them this time.

Thank you so much for serving with us through your prayers and

generous gifts.

Your servants in Christ,

**Sam and Jamie Hornbrook**
